NOTE E MANUTENZIONE

Per evitare la formazione e l'accumulo del calcare, consigliamo di pulire ed asciugare il box doccia dopo ogni utilizzo. Residui di prodotti per la pulizia della persona (shampoo, sapone, ecc..) possono altresì formare l'accumularsi di sostanze che nel tempo possono ridurre l'efficienza delle parti meccaniche del box doccia. Consigliamo dunque di asportare con acqua ogni residuo di prodotti utilizzati durante la doccia.

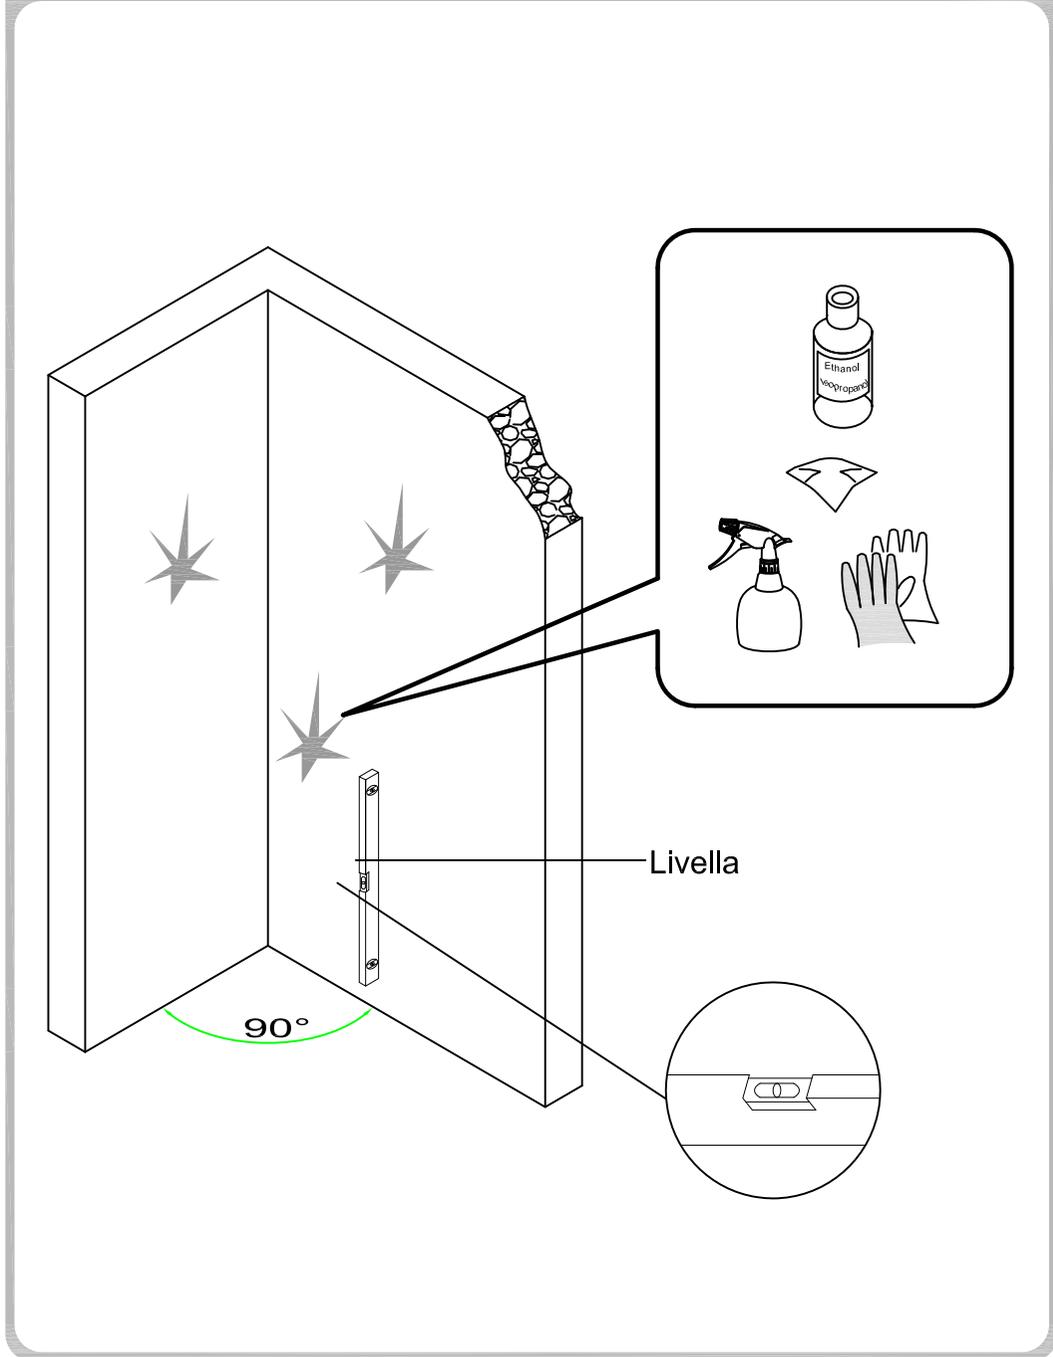

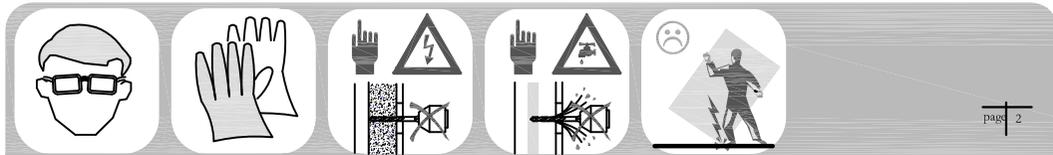

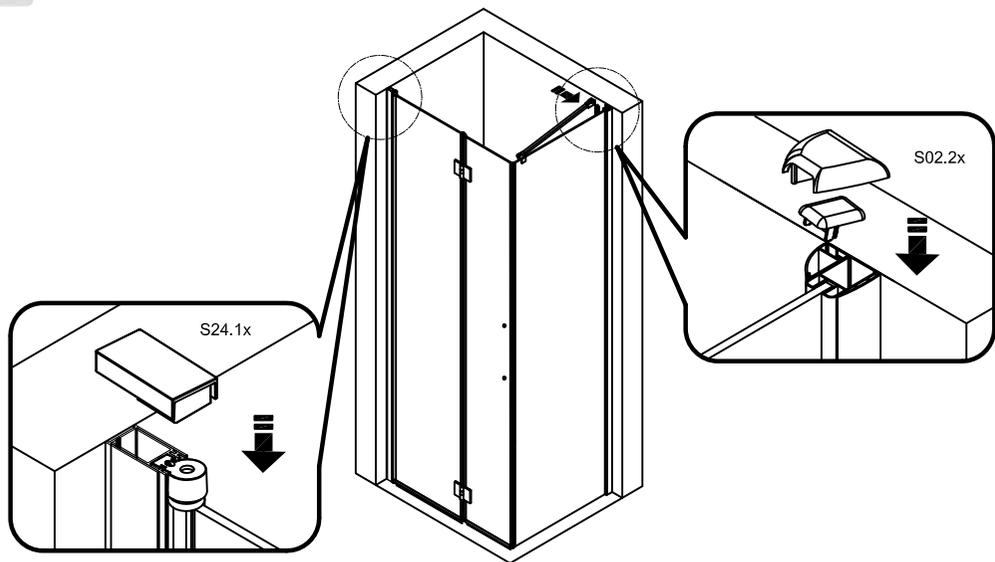

- 1) Impedire il formarsi del calcare pulendo regolarmente i cuscinetti di scorrimento o le cerniere.
- 2) Non utilizzare detergenti aggressivi o abrasivi che possono rovinare la superficie cromo dei profili e delle altre parti in metallo. Utilizzare un panno o un tessuto morbido non abrasivo.
- 3) E' consigliabile utilizzare una miscela di aceto e acqua per una prevenire la formazione del calcare.
- 4) Non appendere oggetti o complementi pesanti sulla struttura del box doccia
